EP6XX ORDERING CODE CHANGES**

In August 1995 Altera announced ordering code changes in its Classic and MAX 7000 component families. In keeping with this strategy, we are now consolidating selected EP6XX ordering codes (Table 1 lists the EP6XX ordering codes affected under the consolidation). Please note that the substitute ordering codes are functional and pin-compatible replacements for the existing codes to be discontinued.

Altera will continue to accept orders for the current EP6XX ordering codes until June 28, 1996. Final shipments of the existing codes by Altera will not occur beyond August 31, 1996.

Should you need additional information or assistance, please contact your local Altera sales representative. Your cooperation is greatly appreciated.
